

Packaging Instructions

Please ensure your laptop is well packaged, in a strong box with at least three inches of clearance all around the laptop with plenty of bubble wrap, foam or popcorn packing.

Secondly, please note the following requirements:

- Please ensure the laptop is in a fully assembled state including all screws, if it is not, we can only accept disassembled laptops if all parts including screws are included in secure internal anti static bags.
- Please include the battery and power supply unit for testing.
- Do not put battery or power supply unit on top of the computer, please place them at the side of the laptop.
- Please write the Repair Order Number you receive on the outside of the box.
- Please include all original disks & operating system software in the event of hard disk or software related problems.
- Please include all passwords and bios passwords.
